

**See the person,
not the chair.**

The Centaur.

Centaur isn't just about getting around, it's about feeling like yourself, wherever life takes you.

It's not a wheelchair. It's not a scooter. It's something new; an intelligent personal vehicle designed for comfort, dignity, and connection.

Whether you're heading to the gallery, the park, or the dinner table, Centaur moves how you do, upright, confident, and present.

This is a new approach to mobility.

The story behind Centaur.

"I didn't want something that said I was disabled. I wanted something that said I was me."
— *Alfie Rajan*

"See the person, not the chair."
— *Tanni Grey-Thompson*

"Centaur is not just about moving. It's about belonging."
— *David Rajan*

Centaur began with lived experience and the belief that mobility should feel enabling, uplifting, and beautifully designed.

Designer Paul Campbell saw his father, Bill, lose confidence as traditional wheelchairs reduced his independence. The aids available worked in function, but often felt clinical, awkward, and isolating.

Meanwhile, David Rajan, a health-tech innovator, was seeking better options for his son Alfie. They wanted a solution that fit their lives, and one that gave Alfie not just mobility, but pride and presence.

From different starting points, Paul and David came together with a shared vision: to create something more than a mobility aid.

Something that helps people stay part of the world around them.

Why Centaur?

- **Stable and confident**
Four-wheel stability means secure handling indoors and out.
- **Easy to join in**
Turns on the spot and fits under tables, so you're always part of the conversation.
- **Comfort built in**
Supportive seating and natural posture, designed for all-day ease.
- **Simple to use**
Intuitive joystick control that feels effortless.
- **Designed with pride**
Clean, uncluttered lines, so people see you, not just the chair.

We've built Centaur for more than movement.

It's all about confidence, comfort and connection. And at the heart of everything is design.

Every single detail of Centaur has been carefully considered so it doesn't just work well, it feels right: stable, intuitive, and made to be seen with confidence and dignity.

The Founders' Edition.

Be part of shaping the future.

The Centaur Founders' Edition is our first release, limited to 18 vehicles. It's for people who see the value in being early, and want to help us refine and evolve the Centaur experience.

- Only 18 vehicles available
- £9,960 (incl. VAT) with 10% deposit to secure
- Test drive and order now
- Comes with personalised support and recognition as one of our first co-creators

This isn't just about being first. It's about helping us build something that will change lives for years to come.

Coming Soon.

The Centaur Production Model
— Spring 2026.

Following on from the Founders' Edition, our first full-production Centaur will launch in Spring 2026, bringing our new approach to mobility to more people.

Register your interest to stay informed, book a test drive, or secure a priority slot when orders open.

Try it for Yourself.

Seeing is believing — but trying is everything. Join us at our central London showroom or arrange a test drive near you.

We'll guide you through the design, answer your questions, and let you experience Centaur in motion.

Fridays at 8 Northumberland Avenue,
London WC2N 5BY

Or request a bespoke appointment.

Centaur

Be Part of What's Next.

We're not just building a product.

We're building a future where mobility feels different; more dignified, more connected, more personal.

Centaur is for anyone who wants to be part of this journey, to see how things change, to help shape what comes next, and to experience a new way of moving through the world.

Whether you're an early adopter, a future customer, or simply curious, we'd love for you to join our mailing list so we can keep you updated as we grow. We'd love for you to be part of it.
